Aqua Plus®

AUTOMATION AND SALT CHLORINATION

Create your ideal backyard experience and keep your pool sanitized automatically.

AUTOMATION

Jump in. Your work is done.

Aqua Plus® simplifies and enhances pool and spa ownership by combining automation and salt chlorination. This all-in-one solution is easy to install and operate, with many options to choose from – like chemistry automation, remote control and more. Automate essential pool and spa functions for maximum efficiency as well as other backyard features.

Salt Chlorination: the key to gentle, clean, silky smooth water.

Say good riddance to red eyes, itchy skin and faded colors on swimwear. Those nuisances are the result of harsh, toxic, factory-produced chlorine. With Aqua Plus, just a small amount of ordinary salt is all that's needed to produce a self-renewing supply of fresh, pure, natural chlorine. The minute you step in the pool you'll notice that you're immersed in luxuriously soft water that's crystal clear, incredibly clean and odor free.

What's in the package? What's in it for you?

The Aqua Plus package contains two main parts: Turbo Cell® and an Aqua Plus automation unit. Here's a simple breakdown of the roles each component plays in making your backyard a relaxing oasis.

Automation Unit:

Aqua Plus is the brains on your pool pad. Adding automation takes the work out of pool and spa ownership by automating all work-intensive functions, such as sanitization, balancing pH, cleaning and filtration. For even more control, customize your system to manage other backyard features — landscape and pool lighting, water features and more. Take control as far as you can — even right into the water with a wireless, waterproof remote.

Perhaps best of all, automation can save you money — by automating essential pool and spa functions, you can save up to 75% on your pool's energy usage.

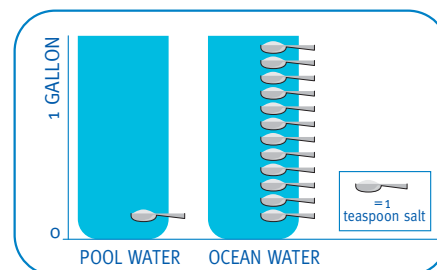

Aqua Plus base system includes salt chlorination, 4 relays, 3 valves and can control 1 heater and solar.

Types of other features Aqua Plus can control:

- Water temperature (gas, electric and solar heaters)
- Filtration cycles (daily/weekly; time of day/duration)
- Pool lights (on/off/timed)
- Spa jets (on/off/timed)
- Backyard lighting (on/off/timed)
- Sprinklers (on/off/timed)
- Water features (on/off/timed)

Turbo Cell:

As pool water passes through the Turbo Cell, its salt is instantly transformed into pure, natural chlorine. This is a continuous process. After you add salt the first time, you practically never have to add any more.

*Aqua Plus
Uses a Minimal
Amount of Salt*

Options and Accessories

Sense and Dispense®

Hayward has the industry's only automation line with an integrated Total Pool Chemistry® option. Sense and Dispense continuously monitors chlorine and pH levels and dispenses what the water needs, only when it needs it. Sense and Dispense can help you achieve the most consistent water quality possible... eliminating unhealthy chemical highs and lows. For water that's brilliantly clear and silky to your touch.

Remote Control

For the greatest possible convenience, Hayward offers a full line of optional wireless and wired remotes. Anything you can do from the automation system itself you can do from any of our full-function remotes. From the simplest on/off function remote to the programmable, full-function, waterproof Aqua Pod™ - now you can take control from anywhere - indoors, poolside, or right in the pool.

Optional Remotes

Aqua Pod - waterproof, fully programmable, handheld remote

Wireless 6-Function Tabletop - suitable for indoor or protected outdoor locations

Wireless 6-Function Spa-side - waterproof, floating remote with on/off control of major functions

Wired 6-Function Spa-side - six-function control

Wired Wall-mount - suitable for indoor or protected outdoor locations

Aqua Pod™

Wireless Tabletop Remote

Wireless 6-Function Remote

Wired 6-Function Spa-side Remote

Wired Wall-mount Remote

Aqua Plus® Base System

Aqua Plus

PL-PLUS

4 relays, 3 valves, 1 heater, solar and salt chlorination for pools up to 40,000 gallons

Options and Accessories

Remote Control

AQL2-POD	Aqua Pod waterproof, full-function, programmable remote
AQL2-SS-RF	6 function waterproof remote
AQL2-TW-RF-P-4	White, wireless tabletop remote
AQL2-TB-RF-P-4	Black, wireless tabletop remote
AQL2-BASE-RF	Wireless antenna
AQL-WW-P-4	White, wired wall-mount remote
AQL-SS-6B-x (x=W/B)	Wired, 6-function spa-side remote

Sense and Dispense, Total Pool Chemistry

AQL-CHEM	ORP and pH Sense, ORP Dispense
AQL-CHEM2	pH Dispense Solenoid valve for CO ₂ , 120V
AQL-CHEM2-240	pH Dispense Solenoid valve for CO ₂ , 240V
AQL-CHEM3-120	pH Dispense Acid Feed, 120V
AQL-CHEM3-240	pH Dispense Acid Feed, 240V
