Aqua Pod™

The handheld controller that does everything and goes everywhere – even into the water.

It all starts with Aqua Logic, Goldline® Controls' industry-leading pool and spa automation and chlorination control. Its one-touch programming manages everything from water flow and temperature to filtration, lighting and more. For the ultimate in convenience, we offer a full line of remote control options for use indoors, outdoors and now with Aqua Pod, right into the water.

Aqua Pod

Totally programmable, fully rechargeable and not just water resistant but completely waterproof, Aqua Pod takes pool and spa control farther than it's ever gone before — right into the water. It's backlit for nighttime use and engineered to float horizontally! When teamed with Hayward's ColorLogic®, Aqua Pod lets you create and control custom light shows featuring over 100 colors, adjustable speed and motion control, and more.

AQUA LOGIC REMOTE CONTROLS

Wireless Tabletop

Full function and programmable, with easy-to-read scrolling displays of all pool and spa functions. Low profile, mobile design with rechargeable long-life internal batteries. Compact, lightweight and ColorLogic-compatible. Available in black and white.

Wireless Spa-side

Floating, waterproof remote controller. Operates pool and/or spa. Simple on/off commands for all functions. Multiple remotes in different locations can be used within a single system.

Wired Spa-side

Basic on/off control of all features. Offered in two models: 8- or 6-functions. Attractive, durable and easy to mount. Available in black, white and gray.

Wireless and Wired Wall Mount

Low-profile design suitable for all indoor or protected outdoor applications. Mounts directly on wall or standard electrical box. Operates up to 500 feet away from Aqua Logic base unit. Connects using four-conductor phone cable. Compatible with ColorLogic. Available in black and white.
