

## Electric Halogen Infrared Heat Lamp

*with Remote Control*

When choosing an outdoor heating system or garage heater, consider Hanover's line of electric infrared heaters. Hanover's 26.5" wide carbon infrared heat lamp is available in 2 options: alone for hanging or mounting and paired with an adjustable stainless steel stand. Each option includes a handy remote control. Use this versatile heater for your patio, porch, balcony, garage, workshop, and more!

Similar to sunshine, infrared heat is a radiant heat that warms a person or an object directly, rather than heating the air in-between. Infrared heat can be felt instantly as soon as you turn it on – no waiting for it to “warm up”.

---
