

Transform your outdoor space into a luxury retreat with the Hampton 5-piece conversation set by Mōd. The lounge-worthy collection includes 2 deep seating chairs, loveseat and faux wood top coffee table. Borrowing from Scandinavian design, these stylish pieces possess a bright white and soft gray color scheme, faux wood grain, clean lines and simple accents. The aesthetic may be modeled after Mid Century decor, but with all the modern advantages. The loveseat and deep seating side chairs are crafted from sturdy aluminum frames with a crisp white finish and faux wood details that provides extended protection against rust, scratches, and UV harm. The included plush cushions are comfortable and quick-drying. Whether you're popping open a beer on the porch or sipping a drink on the veranda, rest your beverage on the faux wood top coffee table, boasting the same durable aluminum frames as the rest of the collection. Tying it all together both literally and figuratively are the decorative rope accents, adding a unique detail to the classic design. Made with weather resistant materials, you'll enjoy the timeless style while having the time of your life for years to come.
