

ChlorSync™

salt chlorine generator

Capabilities of the ChlorSync™ by AutoPilot®

-  Patented temperature compensation
-  Simple installation and service
-  Automatic model detection
-  24 hour boost cycle
-  Tri-sensor measures flow, temperature and salt level
-  Operates at water temperature up to 104° F/40° C
-  Operates at flow rates as low as 20 gpm (4.5 m³/h)
-  Automatic cover connection capability

Control your salt chlorine generator right through your phone and get advanced functionality when paired with the PoolSync™

- View current salt level and water temperature
- See how much salt to add, when needed
- Receive notification when the cell needs to be cleaned
- Be alerted should the unit need any attention
